

Site Update Jan 26th 2008

[Technocrat](#) Mon Jan 26, 2009 11:37 am

Today I update the site to a new version of the SVN.

Some of the updates are pretty noticeable. Like the number of new blocks you should see all around.

We have also corrected a number of bugs, increased speed and caching, as well as updated and added a number of new mods.
